ESCROW ACCOUNT REVIEW

ESCROW EXPLAINED

Part of your monthly loan payment goes into an account to pay for your property taxes and insurance premiums. During the year, payments are made out of this account when bills come due. This notice describes any changes needed in your monthly payment to maintain enough money in your escrow account to pay these bills. In our step-by-step analysis, we determine the data shown below to calculate your new escrow payment.

See below for.

Summary of escrow change

As shown, your base escrow amount remained the same. Your reserve percentage decreased. Your reserve payment decreased. The result of these issues caused your total escrow payment to decrease. Additionally, you were left with a shortage.

> How we post your payment: All accepted payments of principal and interest will be applied to the longest outstanding installment due, unless otherwise expressly prohibited or limited by law. If you submit an amount in addition to your scheduled monthly amount, we will apply your payments as follows: (i) to outstanding monthly payments of principal and interest, (ii) escrow deficiencies, (iii) late charges and other amounts you owe in connection with your loan and (iv) to reduce the outstanding principal balance of your loan. Please specify if you want an additional amount applied to future payments, rather than principal reduction.

Postdated checks will be processed on the date received unless a loan counselor agrees to honor the date written on the check as a condition of a repayment plan. Payments by phone received by 6:00 PM Pacific Time on a business day will be effective the same day. Payments by phone received after 6:00 PM Pacific Time or on a nonbusiness day/holiday will be applied to your account no later than the next business day.

For all full month payment periods, interest is calculated on a monthly basis. Accordingly, interest for all full months, including February, is calculated as 30/360 of annual interest, irrespective of the actual number of days in the month. For partial months, interest is calculated daily on the basis of a 365 day year.

\$1.910.28

^{*} Base amount equals the total of payments anticipated to be paid out of the escrow account during the year but excludes PMI/MIP amounts.
